

## **A special letter from Jody Tiernan to all our current and prospective clients.**

My name is Jody Tiernan and I own a full service tax preparation, accounting and consulting business located in the Dayton, Ohio area. We specialize in preparing tax returns and providing bookkeeping services for self-employed persons, primarily Directors and Consultants for Mary Kay.

With the ever growing number of home-based business audits, I can help provide you with the tools necessary to accurately account for all of your business expenses. Audit activity in the self-employed and home-based business group is **up 23-66% for 2013 compared to 2012**, and is expected to increase at least as much for tax year 2014 and beyond.

I cannot keep you from getting an IRS audit, but I can provide you with the tools necessary so that if you ever get that dreaded “your return has been selected for audit” letter, you will not need to panic.

My family began this business in 1980 with one Mary Kay consultant. Since our inception, we have completed more than **60,000** tax returns with over half of them being Mary Kay Directors and Consultants. Having spent time with actual IRS auditors, we understand what the IRS will and will not allow for home-based businesses. I believe that the knowledge we have attained is unmatched by any other firm.

Since 1980, my firm has provided tax seminars to educate Directors and Consultants on how they need to account for their Mary Kay business on their personal return. We have traveled throughout the country, literally from coast to coast including California, Florida and Alaska, to provide this information and are always looking to expand our business. I would like to establish business in your community and I am asking for your help. Normally, I would charge \$10 per person for those attending the seminar. However, I will leave that up to you to decide what you wish to charge, if anything. If you wish to charge a fee, you may keep the money collected.

Ultimately, I would like to help you and your Consultants do as well as possible and provide you with the correct information regarding your taxes. I can provide an excellent recruiting tool in helping your recruits understand their business, teach them what is deductible, and answer those difficult tax questions.

Please visit our website for more information concerning my firm and the economical costs associated with our tax preparation and bookkeeping fees.

## **DUE TO THE IRS TARGETING HOME-BASED BUSINESSES, FEDERAL AUDITS ARE INCREASING ANNUALLY**
